MULTI-LAYER COMPOSITE PIPE (MLCP)	16
MLCP FITTINGS	17-18
TOOLS & ANCILLARIES	18

INTRODUCING THE MLCP AND PRESS FITTINGS RANGE

THE MULTI-LAYER PIPE SYSTEM IS AN ADVANCED, VERY HARD WEARING AND EASY TO WORK WITH SYSTEM. IT IS MANUFACTURED USING A WELL ENGINEERED COMBINATION OF TOUGHENED PLASTIC AND OVERLAP WELDED ALUMINIUM. THIS COMPOSITE OF HIGH QUALITY MATERIALS MEANS THAT MULTI-LAYER COMPOSITE PIPE (MLCP) HAS SIMILAR DURABILITY TO METAL PIPES SUCH AS COPPER, BUT IS ALSO LIGHTWEIGHT, EASY TO CUT, SHAPE AND INSTALL LIKE PLASTIC PIPES. MLCP AND PRESS FITTINGS IS DESIGNED TO GIVE PLUMBERS AND INSTALLERS THE PERFECT BALANCE OF DEPENDABILITY AND EASE OF INSTALLATION.

SYSTEM BENEFITS

- EASIER TO WORK DURING INSTALLATION COMPARED WITH OTHER PIPE SYSTEMS.
- TYPICALLY REQUIRES FEWER FITTINGS PER INSTALLATION THAN CONVENTIONAL PLASTIC OR COPPER PIPE, SAVING TIME AS WELL AS MATERIAL COSTS.
- SEALS ARE MADE ON THE INTERNAL WALL OF THE PIPE RATHER THAN THE DAMAGE PRONE EXTERNAL WALL. THIS IS ESPECIALLY SIGNIFICANT WHEN "CABLING" OR FEEDING THROUGH CAVITIES.
- PIPE HOLDS SHAPE AFTER INSTALLATION DUE TO INHERENT RIGIDITY AND LOW EXPANSION RATE.
- FLAME-FREE INSTALLATION. NO TORCH, NO GAS, NO FLUX, NO SYSTEM CONTAMINANTS.
- LOW INTERNAL RESISTANCE MEANS GOOD FLOW CHARACTERISTICS AND RESISTANCE TO BUILD UP OF SCALE.
- ALUMINIUM CORE MEANS PIPE CAN BE DETECTED BEHIND THE WALL SO NO NEED FOR A METALLIC PIPE WRAP.
- RESISTANT TO BURSTS FROM FREEZING.
- WRAS APPROVED.

NOTE

- MLCP AND PRESS FITTINGS ARE NOT SUITABLE FOR GAS, FUEL OIL OR COMPRESSED AIR SYSTEMS.
- ALWAYS ENSURE THAT FITTING O-RINGS ARE IN PERFECT CONDITION BEFORE ASSEMBLY. INSTALLATION WITH DAMAGED O-RINGS VOIDS WARRANTY.
- THREADED CONNECTIONS ON FITTINGS MUST ALWAYS BE MADE BEFORE COMPLETING THE JOINT FOR PRESS FITTINGS.

MULTI-LAYER COMPOSITE PIPE (MLCP)

PEX-AL-PEX PIPE

MULTI-LAYER PIPE CONSISTS OF A LAYER OF ALUMINIUM WELDED BETWEEN AN INNER AND OUTER LAYER OF PEX. BS7291:2000 CLASS S. 100% OXYGEN IMPERMEABLE. WORKING PRESSURE 10 BAR. WORKING TEMPERATURE 95°C.

POLIFEMO®

POLYPHOSPHATES AND SILICATES DOSER WITH INTEGRATED BYPASS SYSTEM

THE PROPORTIONAL POLYPHOSPHATES DISPENSER CAN BE INSTALLED ON THE COLD FEED TO THE BOILER AS WELL AS BEING USED ON OTHER APPLIANCES SUCH AS WASHING MACHINES AND DISHWASHERS, TO REDUCE THE PRESENCE OF LIMESCALE. THE POLYPHOSPHATES RELEASED BY THE DISPENSER BIND TO THE CALCIUM AND MAGNESIUM SALTS AND REDUCE THEIR PRECIPITATION, WHICH CAUSES LIMESCALE, CREATING A PROTECTIVE FILM IN THE PIPEWORK WHICH HELPS PREVENT CORROSION.

POLIFEMO®, WITH ITS MORE **COMPACT** DESIGN, COMBINED WITH A **NEW DOSING SYSTEM**, ENSURES EASY MAINTENANCE AND A **MUCH GREATER AVAILABLE FLOW RATE!** THE **VENTURI-EFFECT** DOSING OF THE POLYPHOSPHATES IS PROPORTIONAL TO THE QUANTITY OF WATER FLOWING THROUGH THE DEVICE.

THE **INTEGRATED FILTER STRAINER** PROTECTS THE SYSTEM FROM IMPURITIES, WHILE THE **BLEED VALVE** ON THE NUT FACILITATES BLEEDING OFF ANY PRESSURE IN THE BODY, THUS SIMPLIFYING REFILLING OF THE DEVICE.

ALL VERSIONS OF **POLIFEMO®** ARE EQUIPPED WITH THE **BYPASS FUNCTION** WHICH ALLOWS THE POLYPHOSPHATE CRYSTALS TO BE REFILLED WITHOUT INTERRUPTING NORMAL OPERATION OF THE DEVICE.

AQUASTOP**COLD WATER ANTI-CIRCULATION DEVICE**

IN MIXED SYSTEMS WITH RADIATORS AND UNDERFLOOR HEATING AND COOLING, **AQUASTOP** MECHANICALLY PREVENTS COLD WATER FROM ENTERING THE CIRCUIT ON WHICH IT IS INSTALLED, WITHOUT THE USE OF SERVOMOTORS OR ELECTRONIC CONTROLS.

AQUASTOP CONTAINS A THERMOSTAT : WHEN THE WATER TEMPERATURE IS OVER 19°C, I.E. DURING THE WINTER MONTHS, IT MAINTAINS AN OPEN PASSAGE; WHEN THE TEMPERATURE IS BELOW 19°C, DURING THE SUMMER MONTHS, THE THERMOSTAT RETRACTS AND PREVENTS COLD WATER FROM REACHING THE UTILITIES.

AQUASTOP PREVENTS THE FORMATION OF CONDENSATION IN A SIMPLE AND ECONOMICAL MANNER.

FLEXIGAS DS™ PIPE COILS

FLEXIGAS DS™ IS A PATENT PENDING, DOUBLE LAYERED FLEXIBLE GAS PIPING SYSTEM CONSISTING OF A:

- 1ST INNER CSST LAYER (CORRUGATED STAINLESS STEEL TUBING) PLUS A YELLOW POLYETHYLENE COVER.
- 2ND OUTER SLEEVE LAYER, INCLUDING V0 FIRE RATED CORRUGATED SLEEVING, WITH AN EXTERIOR POLYETHYLENE COVER.

THE OUTER SLEEVE LAYER IS DESIGNED SPECIFICALLY TO MEET THE DEFINITION OF A SLEEVE ACCORDING TO UK REGULATIONS (BS 6891 AND IGEN/UP/2, 3 & 7), AND IS IN SLIDABLE CONFIGURATION WITH THE INNER CSST LAYER.

FLEXIGAS DS™ CONSISTS OF A VERY SMALL ANNULUS BETWEEN THE LAYERS, KEEPING THE OVERALL DIAMETER TO A MINIMUM, WHILE STILL ALLOWING THE INNER CSST TO BE INSERTED AND WITHDRAWN IF NECESSARY.

FLEXIGAS DS™ CAN BE USED TO PASS THROUGH 100% OF ALL INSTALLATION SCENARIOS, STRAIGHT OUT OF THE BOX, WITHOUT ADDING ADDITIONAL SLEEVING ON SITE.

FITTINGS

EASIER, FASTER AND SAFER: SECURE METAL-METAL SEAL IN SECONDS.

FLEXIGAS'S PATENTED SEALING METHOD CREATES A 100% METAL-METAL SEAL IN SECONDS. AS THE FITTING IS TIGHTENED, THE LAST CORRUGATION OF FLEXIGAS™ TUBING IS DEFORMED INTO A FLARED CONFIGURATION AGAINST THE METAL SEAT OF THE FITTING. THE SIZABLE AND REVERSIBLE COLLARS ARE EASY TO HANDLE AND ALIGN THE FLEXIGAS™ TUBING WITH THE FITTING DURING INSTALLATION.

1. Application of Conditions.

1.1 Unless other terms are specifically accepted by CQI Limited ("Company") in writing all and any Business undertaken by the Company is transacted subject to the following conditions. No addition to or variation of or exclusion of these conditions or any of them (whether contained in any official order form from any Customer or otherwise) shall be binding unless such addition, variation or exclusion has been expressly and specifically accepted in writing by the Company.

1.2 Orders accepted by the Company may not be cancelled under any circumstances without the prior written agreement of the Company. Cancellation of goods to a Customer's own specification will not be accepted.

2. Delivery.

2.1 Delivery times and dates are given in good faith and all reasonable endeavors will be made to comply with them but such dates and times are estimates only, do not form a term or condition of any contract and no guarantee is given in respect of them so that the Company is not liable for direct or indirect losses arising from any delay in delivery. Notwithstanding for foregoing and subject to clauses 10 and 13 below the Company will Endeavour to deliver products no later than the working day following the day on which an order is received from a Customer by the Company in accordance with the Company's "guaranteed next day delivery" service. In the event that the Company is not able to deliver on the next working day following the day on which an order is received from a Customer then the Customer shall have no right to rescind or otherwise cancel its order and the Company's liability in respect of such delay shall in no circumstances exceed the value of the products to be delivered to the Customer pursuant to the relevant order.

2.2 Delivery will be at such location as is agreed or if none is agreed at such location as the Company specifies. The Company reserves the right where appropriate to make delivery of goods ordered by installments.

2.3 If for whatever reason the Customer fails to take delivery of any goods governed by those terms and conditions ("Goods") when the same are ready for delivery the Company may at its option place in store or resell the Goods in question and in that event the cost of storage whether at the premises of the Company or of any third party will be borne by the Customer at rates current from time to time and will together with any additional insurance or double handling charges be added to and from part of the price for the Goods in question.

3. Prices.

Prices shown on quotations or acknowledgements of orders are subject to alteration or withdrawal without notice. Owing to fluctuations in currency rates and costs of materials, the Company reserves the right to change the prices ruling at the date of dispatch. All prices quoted are exclusive of value added tax which will be charged at the rate applicable on the date of invoice.

4. Warranty.

4.1 Should any product sold by the Company prove defective by virtue of faulty materials or manufacture, the Company will replace the same free of charge provided it is notified in writing within 2 months of delivery unless otherwise stated on a document accompanying any particular Goods. This warranty applies only to faulty constituent part in any Goods and not to incidental damage or consequential loss nor to labour nor to delivery of damaged goods to the Company for repair or replacement. This warranty is without prejudice to any rights implied by statute or common law.

4.2 This warranty will not apply to any Goods which in the Company's reasonable opinion have been altered in any way, subjected to misuse or unauthorized repair, been improperly installed or connected or in respect of which any person (other than the Company) has failed to observe or perform any maintenance requirements or procedures. In addition, the warranty will not apply unless the Customer notifies the Company immediately of the defect or the suspected defect in any Goods comes to its knowledge or attention. The Company will not honour this warranty for as long as there persists any breach by the Customer of any contract made with the Company.

5. Claims for Damage, Shortage or Loss.

5.1 No claim for damage or loss of Goods in transit or shortages in delivery can be accepted and all such claims will have deemed to have been waived by the Customer unless separate notices in writing are given both to the Company within 7 days of receipt of the Goods in question and to the carrier concerned within that period or within any shorter time limit specified in such carrier's applicable terms and conditions of business.

5.2 Any errors or omissions in goods delivered will subject to notifications in accordance with clause 5.1 be corrected or rectified by the Company as soon as reasonably practicable in such manner as it shall consider appropriate (whether by replacement, delivery of additions or alternative Goods, repair or otherwise).

6. Return of Goods.

Once dispatched, Goods may not be returned to the Company without its written consent and such consent will only be given against a charge of not less than 15% of the value of the Goods in question such charge to be not less than the amount of the Company's expenses in relation to such return. Notification of returns must be given within 7 days of receipt of the Goods.

7. Technical Advice.

Although not qualified so to do the Company may at the request of the Customer (without being under any obligation to do so) furnish technical advice or assistance with reference to the use, repair or installation of any Goods sold by it but the same is furnished or given on the express understanding that is accepted as an expression of opinion in respect of which the Company and its staff have no specific relevant expertise or qualification and is therefore used or heeded at the Customer's risk and the Company shall not be liable for any loss or damage or any claims of whatsoever nature arising directly or indirectly out of the Customer's use or application of such advice or assistance.

8. Settlement Terms.

8.1 If required by the Company full payment will be made before delivery of any Goods and in any event all invoices will become due for settlement and be paid no later than 30 days after the end of the month in which the invoice date falls. Once any amount becomes overdue the Company reserves the right to deem the whole balance on the account as due and collectable. All amounts shall be due and payable in pounds sterling. In addition, the Company reserves the right to recover all costs of collection arising in respect of overdue accounts.

9. Title and Risk.

9.1 Until all money due from the Customer to the Company under any contract or agreement or otherwise has been paid in full, legal and equitable title in the goods shall remain with the Company and the Customer shall be in possession of the Goods as Bailee.

9.2 Notwithstanding 9.1 the Customer is authorised to sell the Goods in the ordinary course of business as agent or on the account of the Company and to pass good title in the Goods to its customers and convert or incorporate the Goods into other goods or materials.

9.3 The Customer will store the Goods separately and ensure that they are clearly marked as belonging to the Company.

9.4 The Company may inspect and or recover the Goods at any time and for this purpose may enter into any premises where the Goods are stored.

9.5 The authority to sell convert and incorporate given by clause 9.2 may be revoked at any time by the Company and will automatically determine if there is made a receiving or bankruptcy order against the Customer or (where the Customer is a limited company) it enters into liquidation or has a receiver appointed over any of its assets.

9.6 To the extent necessary to pay all money due to the Company whether under any contract agreement or arrangement of sale of the Goods shall be received and held by the Customer on trust for the Company and at the Company's request will be paid into a separate bank account.

All such advertisements, literature and promotional material are for general information purposes only, are approximate and subject to change and to differ from any goods sold by the Company from time to time.

10.3 Apart from the guarantee given under clause 4 above the Goods are not guaranteed or warranted howsoever and no representation or warranty expressed or implied is given as to the suitability or fitness of the Goods or any of them for any particular purpose so that in agreeing to purchase them the Customer will be taken to have satisfied itself/himself/herself as to their suitability for any purpose for which they are intended to be used.
